## EDUCATION

### Purdue University

West Lafayette, IN

*B.S. in Computer Science, GPA 3.87/4.00*

*May. 2028*

**Relevant Coursework:** Object-Oriented Programming, Data Structures, Algorithms, Artificial Intelligence, Competitive Programming, Data Science, Algorithmic Game Theory

## EXPERIENCE

### Corteva Agriscience

May 2026 – Aug 2026

*Full Stack Data Scientist Intern*

*Indianapolis, IN*

- **Technologies:** Python, Azure Container, Document Intelligence, Chemistry Formulation, LLM Harness
- Built a full-stack internal AI tool using **agentic LLMs** to speed up R&D process.
- Developed backend services, UI/UX, and deployed the application on **Microsoft Azure**.
- Reduced document review effort from **0.9 FTE** to **0.23 FTE (74% reduction)** through AI-assisted automation.

### Purdue University

Aug. 2025 – Present

*Head/Development Teaching Assistant*

*West Lafayette, IN*

- **Technologies:** C/C++, Bun, Data Structures, Algorithms, Python
- Served as a Teaching Assistant for **CS 211, CS 311 - Competitive Programming I/II**
- Created and solved competitive programming problems to prepare course materials and assignments.
- Built internal tools to streamline course administration.

### Data Mine - Elevance Health

Aug. 2025 – May. 2026

*Product Manager*

*West Lafayette, IN*

- **Technologies:** Git, Python, PyTorch, Splunk, Jupyter Notebook, Pandas, Agile
- Led a 10-student team as Product Manager in a Purdue-Elevance Health cybersecurity project.
- Performed DNS analysis, protocol inspection, TLS monitoring, and time-series ML for threat detection.
- Analyzed **millions** of weekly log entries for anomaly detection in large-scale, highly imbalanced datasets.

### Purdue M2 Lab

Nov. 2024 – Present

*Research Assistant*

*West Lafayette, IN*

- **Technologies:** Git, Python, PyTorch, UNIX, HPC
- Conducting research on forgery and deepfake detection with focus on **multimodality** and **localization**.
- Ranked **top 3 globally** in the 2025 **1M-Deepfakes Challenge** with 51% localization accuracy.
- Leveraged TACC HPC to train on 1M+ videos and design methods for **98%-vs-2%** imbalanced data.

## PROJECTS

### BSK All-In-One Clinic Management App | *Java Netty, Java Swing, SQL, Jasper Report*

Dec. 2024 – Present

- Developed a full-featured client-server system supporting over **3,000 weekly patients**.
- Integrated a medical-grade **ultrasound machine** for real-time streaming and data parsing.
- Enabled secure real-time image sync, allowing patients to view ultrasound results online.
- Optimized system workflow, reducing patient wait time by **30%** and increasing daily throughput by **40%**.

## PUBLICATIONS

**Dat Le**, Khoa Nguyen, Xin Wang, Shu Hu. "Towards Multi-Modal Forgery Representation Learning for AI-Generated Video Detection and Localization." *IEEE International Conference on Image Processing*, 2026. (Accepted) [PDF]

## HONORS & AWARDS

**ICPC North America East Central Regional** | Top 25

**Vietnamese Olympiad in Informatics** | Honorable Mention Award

## TECHNICAL SKILLS

**Languages:** Java, Python, C/C++, JavaScript, TypeScript, SQL

**AI/ML:** PyTorch, LangChain, Agentic AI, LLMs, RAG, Prompt Engineering, OCR, Document Intelligence, Multimodal AI, Computer Vision, NLP

**Frameworks:** Vue.js, Node.js, Express.js, Java Netty

**Developer Tools:** Git, Docker, Podman, Azure, Azure Container Apps, Azure AI Document Intelligence, MongoDB, Splunk, Jupyter, Anaconda, UV, Claude Code, Linux, HPC
